PHV:

Activities for nursery

Activity/Suggestions	Comments
♦ Offer Ayden a choice of activity and then encourage him to stay and complete the task he has chosen. <i>Gradually introduce more activities to choose from.</i>	
♦ Support Ayden to take part in simple turn taking games. Use one activity to share. Encourage Ayden to look at the activity when it is not his turn and encourage him to anticipate whose turn it is next. <i>Begin with Ayden and one adult then Ayden and one child and gradually increase the amount of children.</i>	
♦ Introduce objects/pictures of reference at song/story time. Encourage Ayden to select a song or story of his choice.	
♦ Introduce an 'Activity Box time' Encourage Ayden to complete adult focused/adult led activities. Introduce one activity at first then gradually introduce more so that he is listening and attending for longer periods. (activities should be linked to goals/targets) * <i>Introduce calming/soothing activities before expecting Ayden to sit for adult focussed time</i>	
♦ Encourage Ayden to develop his play by modelling and adding/extending to his play sequences. <i>Give Ayden a running commentary on what he is doing, avoid asking him too many questions.</i>
